By creating meaningful connections through cuisine, Elevate transforms the dining experience into a culinary celebration

that inspires the engagement of our residents, families and friends. Elevate is a culinary program that goes far beyond the industry's traditional culinary experience.

GENERATIONS

Honor the past, connect with the present, inspire the future.

The ISL Generations Memory Support Program follows a philosophy of a person-centered

culture where one is a whole person first, the person they were and still are, and not identified by their disease and behaviors. We strive to celebrate and highlight the abilities of those we serve.

Vibrant Life® is a cutting-edge activities program with an

innovative approach designed for enhancing and enriching residents' lives across seven core components for well-rounded and meaningful experiences. These core components provide the balanced structure for implementing diversity across the Vibrant Life program, which is embraced through several signature programs.
